# Weekly Lesson Plans

Week \_\_\_\_\_

	Monday	Tuesday	Wednesday	Thursday	Friday

## Notes on Using the Weekly Lesson Planner

These forms aren't fancy, but they are simple and clear and work for us!

This version allows you to list students down the left, so that each students' work is together and can his progress can be checked at a glance.

I usually use at least one of the rows for "Everybody" or "Younger Students" to record the subjects that we are doing together so I don't have to rewrite them.

If you have an extra row, you can use it for your preschooler's activities or for whole family appointments or activities. If you are blessed with more children than rows, just use a second page each week.

I use abbreviations. So for Saxon Math 54, lesson 8, I would write S54/8 just to make it fast and easy. Do what works for you!
